How to Accelerate The Implementation
of Smart Cities in Malaysia

15 & 16 MARCH 2021

OBJECTIVES

To enhance local authorities' understanding of Malaysia's national aspiration toward smart cities implementation. The initiative focuses on the planning, implementing and management of smart cities based on business models, technologies and funding models available.

To provide the local authorities with further understanding of the various scenarios of business opportunities, funding models and guidelines for smart city development.

To provide guidance and know-how for local authorities to implement smart city projects.

FOCUS AREA / MODULE OUTLINE

- 1** Aligning smart city initiatives with the National Policy & Malaysia Smart City Framework.
- 2** Smart city guide to the planning and development process.
- 3** Collaboration as the key success factor to smart city development.
- 4** Contribution of smart cities to achieving Sustainable Development Goals (SDG).
- 5** The implementation of smart city to accommodate new norms in the midst and post COVID-19.
- 6** Identifying the right technology to implement smart city initiatives.
- 7** How to apply funding for smart city projects – do's and don'ts.
